

**WE THINK
YOU LIVE
BETTER**

ELVIRA
A SENSIBLE SWITCH

DISCOVER
THE THINKING
THAT GOES INTO
MAKING LIFE
BETTER.

Before we started creating a top notch quality switches. We put you at the center of our universe. We promise to provide a superior quality, longer lasting, greater value for money products for you. We focused on attributing it with better features with better functionality and making it more practical. When it all came together it just made perfect sense. Elvira: A Sensible Switch.

Because at IndoAsian,
Everything that we build
Make Sense

FEATURES

There are so many reasons why Elvira should be your choice. We have listed 12 smart and sensible ways in which Elvira can help you live better. We are sure you will be able to find 12 more.

DESIGNED FOR YOU

NATURAL, WHITE COLOUR

When we say its white, that's how it is going to be for years to come by.

COLOUR PLATES THAT REFLECT YOUR PERSONALITY

Colours are an expression of identity. Elvira's range of colour plate reflects modern lifestyle balanced with traditional outlook. They dazzle to bring alive your trending sense of fashion

BUILT TO LAST

Elvira is designed to last longer. The curved, screw-free exteriors, flexible clips for greater stability and strength.

USB CHARGER

When comfort meets style and style meets faster charging we bring Elvira USB charger to meet our daily requirement without carrying multiple accessories.

COMPLETELY COMPATIBLE

SERIOUSLY SAFE

SHROUDED TERMINALS

This minimises exposure from accidental contact with live screws and terminals during installation for the electrician.

BASE SHUTTERS

We've moved the shutter from the top round hole to the base, thereby needing contact from both plug pins and giving complete protection to the curious children.

TOTALLY TRUSTWORTHY

QUALITY STANDARDS

There's a reason why IndoAsian is preferred; the **ISI mark** is a universally-recognised quality standard. This means our switches will last more than decades. Rigorous testing exceeding 1,00,000 On/Off operations means that our switches will last you more than a decade.

HIGHLY DURABLE

HIGH-GRADE POLYCARBONATE SWITCHES

Our Polycarbonate switches are FR grade with sun protection. They are heat-resistant, flame-retardant and even UV-stabilised. The high grade of Polycarbonate that we use adds to the structural stability.

Our switches are compliant with revised BIS standard (IS 3854:2023) requirements. Also, our switches are covered additionally for use on Self-Ballasted Lamp (SBL) loads

SBL power rating as per IS3854:2023				
Switch Rating	6A, 230V~	10A, 230V~	16A, 230V~	20A, 230V~
SBL power (Watt)	100 W	100 W	200 W	250 W

EXTRA EFFICIENT

DETAILING FOR INSTALLATION

Behind every switch we've indicated which side is Top, which means your electrician will always install the products correctly. No mixing up of directions, no time wasted.

EFFECTIVELY POWERED

UNIQUE INDICATOR SWITCHES

Our indicator switches are powered with LED, which implies longer life and less energy consumption.

The unique indicator design delivers brightness greater than neon indicators, making it even more efficient.

TRULY PERMANENT

LASER-ETCHED SWITCHES

Laser technology replaces printing and painting for easy identification of product ratings and descriptions. All our switches are permanently etched in high-contrast, clear figures and letters that are Guaranteed to last long.

UTMOST CONVENIENCE

DND & MMR

- Make my room and Do not Disturb indicator
- Quality assurance as per company standards

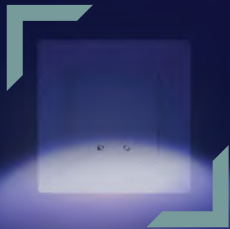

KEY CARD

- Monoblock electronic switch
- Activation switch by card insertion

SKIRTING LIGHT

Lights up your life when you need it most. IndoAsian Skirting light/Foot lamp, are simple to install just above the skirting and allows you to guide you when the lights are off. These are made with high-grade flame retardant polycarbonate material.

ELVIRA RANGE

The Elvira wiring system consists of switches, sockets and indicators that are packed with style, functions and features. This high-quality range extends from residential to offices to hospitality that are ISI certified.

The range includes defined dimmers and fan regulators, USBs, Hospitality products (Key card, DND & MMR), call bells, skirting lights, 15A socket and motor starters and many more...

INSTALLATION PROCESS

Installing a sensible switch is a simple process. Here's how:

Fix the metal box either into or on the wall.

Press-fit the switch and socket into the base frame. Connect the wires to the switch and socket.

For a smooth and seamless look,
press-fit the cover plate to the
base frame.

Fix the connected and
wired base frame to the metal box.
